

# More automation, more time

*Free up massive resources with a simple solution*

Switch to a smarter phone system built to help you and your customers. With CleverCall, you get a solution that not only accepts calls but also answers them. With your very own Voicebot, which you can easily tailor to your company's needs. All at a sharp price.

## Help your customers 24/7

The Voicebot works 24/7. Your customers can always call and get answers to crucial questions - even when the moment of purchase is at 22 in the evening.

## Get an efficient AI receptionist

The Voicebot can perform all a receptionist's tasks. Answer questions, book meetings, and forward calls correctly with the Voicebot's intelligent language understanding.

## Save enormous resources

In addition to raising the service level, CleverCall's greatest strength is saving resources. It frees up time, energy, and finances to create a smarter organization.
